MEMORANDUM

DATE: April 22, 2019
TO: RTCC/RTAC
FROM: Allen Serkin
RE: Prioritization 6.0 update

1. **SCHEDULE:** P6.0 Schedule is released and attached. Key deadlines:
 - a. 7/26/2019 – submit list of carryover project modifications and deletions
 - b. 9/27/2019 –submit new projects and adopt area-specific weights
 - c. 5/1/2020 – adopt local input point methodology
 - d. 7/31/ 2020 – assign Regional Impact local input points
 - e. 10/30/2020 – assign Division Needs local input points
2. **COMMITTED PROJECTS:** The P6.0 Workgroup has reached consensus that projects programmed for right-of-way or construction in the first 6 years of the Final 2020-2029 STIP will be considered committed and are not subject to re-prioritization in P6.0. Based on the Draft 2020-2029 STIP, the following CFRPO projects would be considered committed:

SPOT ID	Mode	TIP	Description	Cost to NCDOT
A150497	Aviation	AV-5815	ACZ (Henderson Field) - Construct Apron Expansion (Phase II) and Partial Parallel Taxiway (PC# 2485)	\$2,103,000
B170770	BikePed	EB-5982	NC 211 - Construct a sidewalk on the east side of NC 211 (N Howe St) from the ABC Store (end of current sidewalk) to Doshier Hospital	\$204,000
F150236	Ferry	F-5707	Southport-Ft Fisher Ferry - Construct additional mooring facilities at Southport terminal	\$5,000,000
H090803-F	Highway	R-5877	US 17 - Construct a continuous Green T intersection at NC 210 at Surf City	\$2,800,000
H150503	Highway	R-5850	NC 53 - Widen to 3 lanes from US 117 Bypass to Stag Park Rd	\$4,200,000
H170193	Highway	R-5952	US 701 Bypass/Complex St - Construct an interchange at the intersection of US 701 Bypass and SR 1305 (Complex St) in Tabor City, including partial realignment of US 701 Business (Hickman Rd) and Complex Street	\$7,900,000

3. **CARRYOVER PROJECTS:** The P6.0 Workgroup has reached consensus on the method for determining which P5.0 projects will carryover automatically to P6.0 and which projects will need to be resubmitted as new projects. There are three categories of carryover projects: (1) uncommitted projects programed in the Final 2020-2029 STIP; (2) projects that will be within

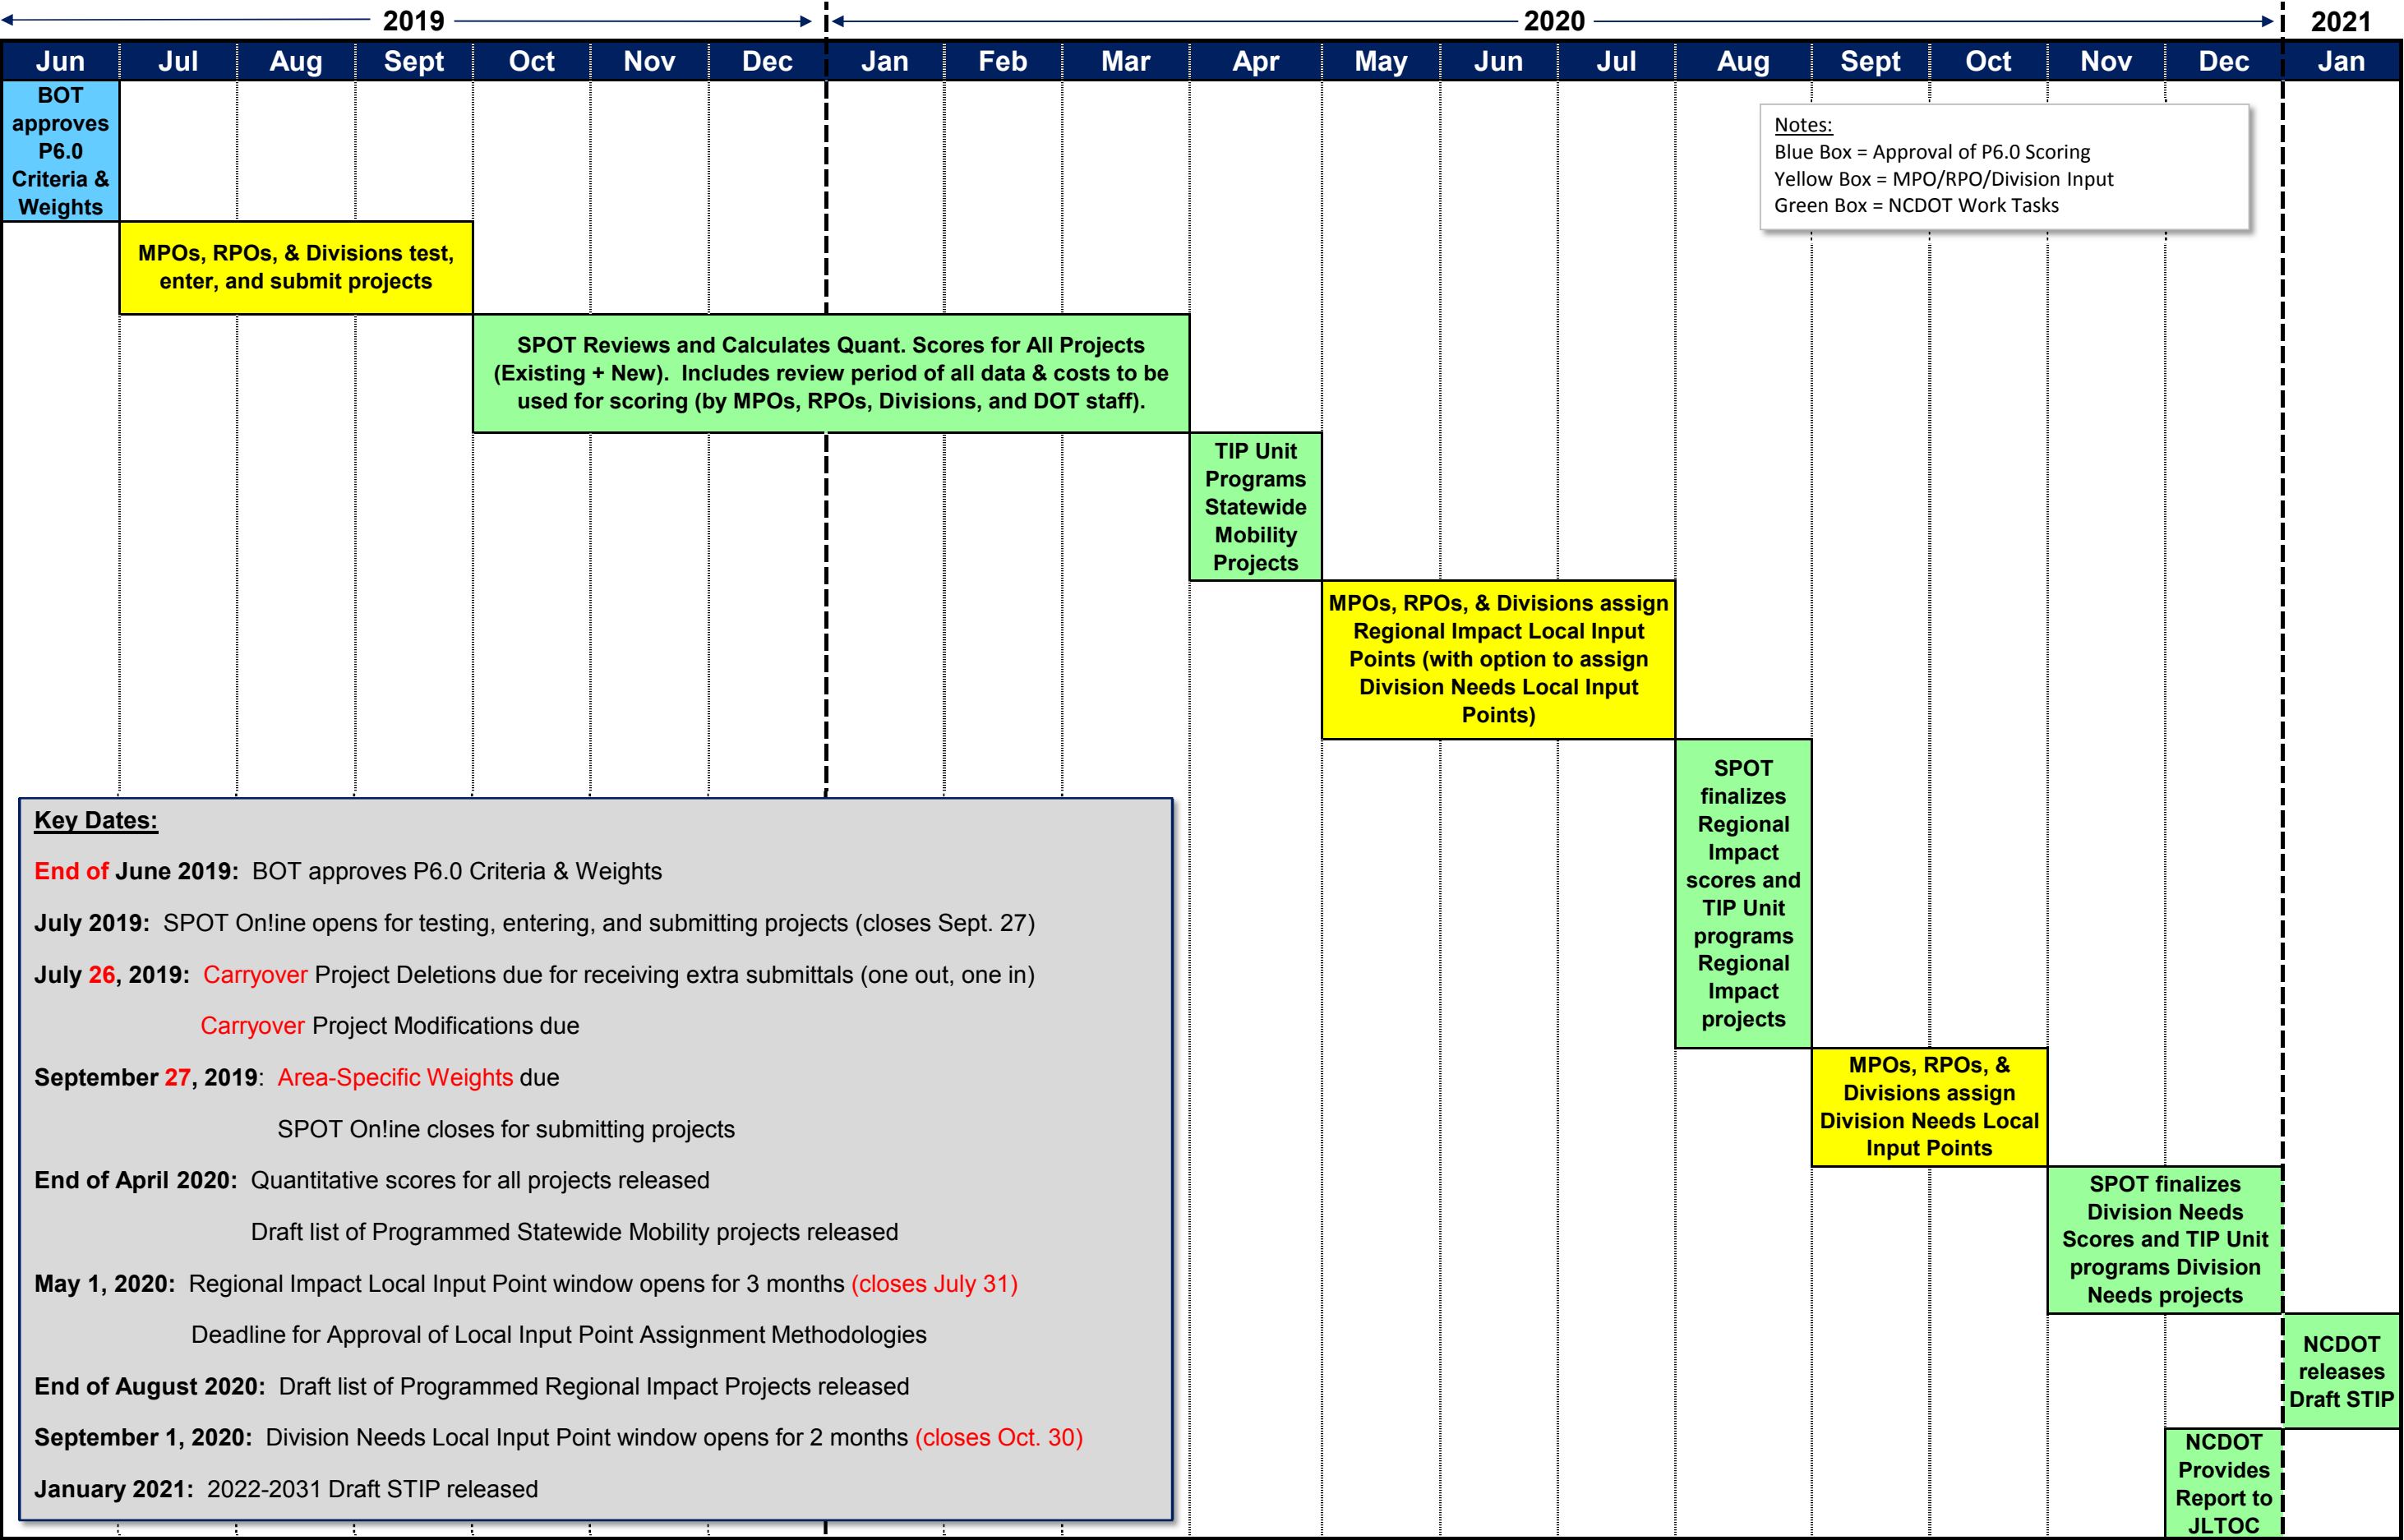

the limits of a NEPA document for a project programmed in the Final 2020-2029 STIP; and (3) projects with a NEPA document that was completed after January 1, 2009 or is in-progress and active as of December 31, 2018. These criteria are slightly different from P5.0. Based on the Draft 2020-2029 STIP, the following CFRPO projects would carryover automatically for P6.0:

SPOT ID	Mode	TIP	Description	Cost to NCDOT
F150235	Ferry	F-5705	Southport-Ft Fisher Ferry - Acquire new river class vessel	\$14,000,000
H090133-B	Highway	R-2561B	NC 87 - Widen to 4 lanes from SR 1730 (Elwell Ferry Rd) in Bladen County to NC 11 in Columbus County	\$56,100,000
H090133-C	Highway	R-2561C	NC 87 - Widen to 4 lanes from NC 11 to US 74/76	\$93,000,000
H090236-A	Highway	R-3434	NC 906 (Midway Rd) - Widen to 3 lanes from NC 211 to Gilbert Rd	\$26,800,000
H090236-B	Highway	R-3434	NC 906 (Midway/Galloway Rd) - Widen to 3 lanes from Gilbert Rd to US 17	\$45,900,000
H090237-A	Highway	R-5876	I-74 (Carolina Bays Parkway) - Construction on new location from SC state line to US 17 south of NC 904	\$366,700,000
H090806-C	Highway	R-5947	NC 211 - Widen to 4 lanes from SR 1112 (Sunset Harbor Rd) to NC 906 (Midway Rd)	\$33,500,000
H090936-A	Highway	I-6011	US 74 - Upgrade to interstate Standards from NC 41 in Lumberton to US 76 near Chadbourn	\$53,600,000
H170036	Highway	R-5899	NC 210 - Construct roundabout at Watts Landing Rd (SR 1560)	\$2,100,000
H170045	Highway	R-5900	NC 50/NC 210 - Convert intersection to roundabout	\$7,100,000
H170433	Highway	R-3434	Construct a 1-lane roundabout at NC 906 (Midway Rd) and SR 1501 (Gilbert Rd)	\$1,400,000

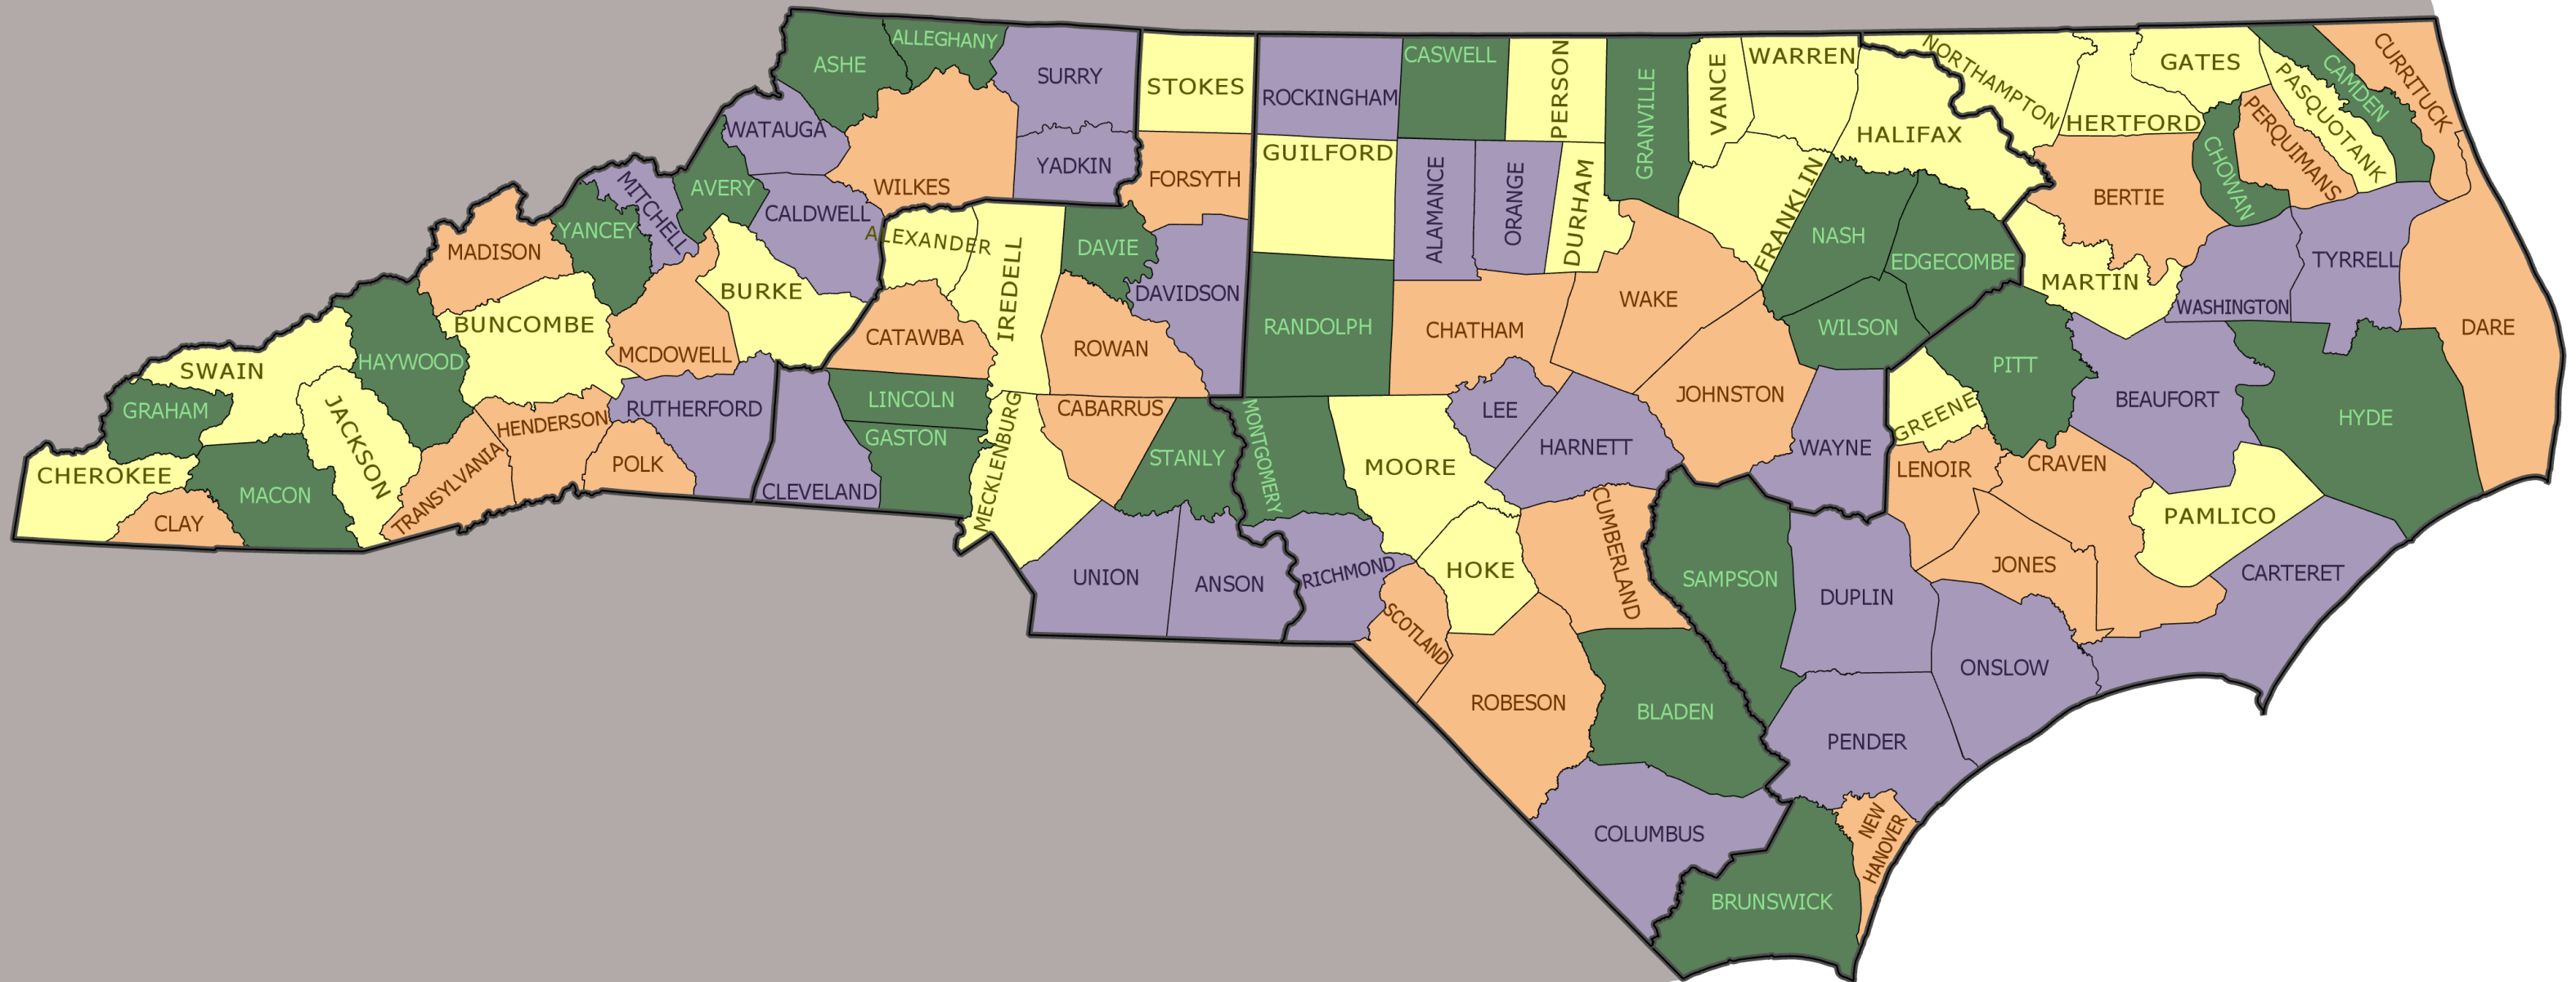

4. **NEW PROJECT SUBMITTALS**: The P6.0 Workgroup has reached consensus on the method for determining the number of new project submittals per mode for P6.0. An additional submittal for a mode can be obtained by deleting a carryover project for that mode. The CFRPO will receive 19 new submittals per mode for P6.0. This is the same as in P5.0.
5. **LOCAL INPUT POINTS**: The P6.0 Workgroup has reached consensus on the methodology for determining the number of points available for project assignments. The CFRPO will have 1300 points available to assign to projects at both the Regional Impact and Division Needs categories, with no more than 100 points available to any one project. This is the same as in P5.0.
6. **SEASONAL TRAFFIC**: NCDOT is conducting a multi-year project to conduct seasonal traffic counts on US and NC routes for calculating Peak Average Daily Traffic (PADT) in future rounds of Prioritization. A minimum of one (1) seasonal count station will be established along each corridor segment between Interstate, US, and NC routes. Counts will be taken four (4) times per year, one per season, for a 120 hour interval from Wednesday to Sunday excluding atypical weeks like those of Memorial Day, 4th of July, and Labor Day. The collection schedule for CFRPO counties are as follows:

County	Collection Year	# Stations

Southport (May 20) : Complete Streets NC

Truper & WPBlogger

Complete Streets Workshop

May 20, 2019, 10:00am to 4:00pm

Southport Community Building, 223 E. Bay St., Southport, NC

This workshop is intended to bring together a diverse group of stakeholders to focus on building support for complete streets in North Carolina. The workshop will be an opportunity to share information about the State's [Complete Streets Policy](#) and help community members work collaboratively with transportation agencies to support its implementation.

This one-day workshop will:

- Engage a diverse audience of State and local staff, community organizations and stakeholders, and decision-makers on the topic of Complete Streets
- Establish relationships between these organizations to build support for Complete Streets projects
- Equip participants with the tools and information they need to more effectively engage in transportation decision making

The following individuals should attend the workshop:

- Planners, engineers and policy makers working for State, regional, and local agencies
- Elected officials
- Community, advocacy and non-profit organizations working to improve their communities through health, safety, and livability initiatives

Lunch will be provided, and there will be ample time to network with others in your community and develop action plans for supporting complete streets implementation. Complete your registration below to receive additional details about the workshop, or reach out to Dan Gelinne at the UNC Highway Safety Research Center with your questions (gelinne@hsrc.unc.edu, 919-962-8703).

TCC TPD UPDATES CAPE FEAR RPO
May 1, 2019

New Business:

Columbus County CTP – The TPD Engineer is addressing the RPO comments and will start working on inventory table. The TPD Engineer for this CTP has been promoted to another group and will have additional responsibilities and a transition.

Brunswick County Model – In the Northeast Group, we have a staff shortage. We have gone from 8 engineers to 3 currently with multiple CTPs and Models going on in our area. Due to this shortage, the Brunswick County Model will be put on hold for now until we hire more engineers.

Strategic Transportation Corridors Master Plans: They have finalized the generic scope with the consultants for all STC plans. They are waiting for consultants to modify their individual scope of services before moving onto the next phase.

NC Statewide Model: CDM Smith and RSG are our consultants for the NC Statewide Model. The model is underway and they are on the Trip Assignment phase at the moment.

NCMoves 2050: The N.C. Department of Transportation is updating its long-range transportation plan to help guide North Carolina's future transportation policies and

investments. Called NC Moves 2050, the plan provides a 30-year transportation blueprint for the state.

Statement Transportation Plan (NC Moves 2050): Consultants are addressing all comments being submitted including the Secretary of Transportation's comments. Groups have been formed to host Table Topics. Staff has been reaching out to different organizations to host table topics with a representative from NCDOT. Sprong Table Evnts contie to be scheduled: the Azalea Festival in Wilmington 4/6-7, Pickle Festival in Mt. Olive 4/13, DMV Special Event in Raleigh 4/13, POW WOW in Hollister 4/20, Hmong Easter Festival in Hickory 4/20-21, DMV Special Event in Greensboro 4/27, Electric Vehicle Car Show in Greensboro 4/27, Lexington Multicultural festival in Lexington 5/4, Latino Festival in Wilmington 5/4, Disabled Veterans Fair in Wilmington 5/11, Got to Be NC in Raleigh 5/17-19. The survey is open now and will be closing out on June 2nd. There is a educational video that has been released.

Traffic Forecasting: The latest P5 list and the draft STEP has been reviewed and all 14 Highway Divisions have been contacted regarding traffic forecasting priorities. Forecast requests continue to come in from Corridor Studies from their "pre-analysis" process. Work is continuing on Structures Management's 2023 Project List.

Old Business:

CTP Study Requests – CTP Study Requests were accepted in Spring of 2018. Studies have been prioritized and assigned based on available resources, mainly as new work plans began in June 2018. Other assignments may occur later as additional resources become available.

Performance Measures – Summary of pending items and deadlines:

1. PM2 and PM3 targets (pavement, bridge, and system performance):
 - Per CFR450.324(f)(3), the MTP has to contain a description of the performance measures and the targets used.
2. MPO's are required to amend their TIP by updating language within it.
3. Data sharing agreements.
 - Recommend executing agreement as soon as possible.
4. NCDOT submitted the required yearly safety (PM1) targets on August 31, 2018.
 - MPO's have 180 days to support NCDOT's targets or establish their own (Feb 27, 2019).
 - Safety targets are a yearly process.
 - MTP needs to be updated to include these targets.

The jointly written provisions (which are noted in the draft data-sharing agreements) to address FTA's Transit Assessment Management/State of Good Repair (TAM/SGR) performance measures must be completed by October 1, 2018. As information on transit asset conditions as reported by providers of public transportation to the National Transit Database (NTD) will not be available until October 2019, they will need to provide this

information directly to their MPO. For additional TAM/SGR information, please see FTA's TAM webpage.

Wilmington Model Update – The model is completed, documentation is completed as of last month.

Pender County CTP – TPD has done a lot of pre-work for Pender County, once the RPO and engineer can provide more time and grasp a better understanding of CTP 2.0 – they will start the CTP within the next few months.

Statewide Plan: The N.C. Department of Transportation is conducting an update to its long-range transportation plan to guide North Carolina's future transportation policies and investments. NC Moves 2050 is a plan that will provide a 30-year transportation vision and implementation plan for the state. Changing demographic and economic trends across urban and rural regions of the state, along with anticipated changes in technology, weather, tourism, and funding sources make now an opportune time to produce a bold, forward looking transportation plan to guide investment policy and system performance that will be more reactive to the dynamic change on the horizon.

The engagement of the stakeholders and public is critical during this initial stage of the planning process. To capture thoughts and ideas about the state's biggest challenges for the future, North Carolina residents are encouraged to provide input through our [survey](https://publicinput.com/ncmoves) through November 30th. The survey can be found at <https://publicinput.com/ncmoves>. This survey focuses capturing public input about the challenges for our state and the future of our transportation system. Responses will help to inform the vision and goals for NC's transportation plan. We will also have our kickoff stakeholder meetings in Kinston on 10/24/18, Raleigh on 10/29/18, and Charlotte on 10/30/18. We have invited a representative from each MPO, RPO, State Agencies, and State Advocacy Groups across North Carolina.

Training: A recording of the 2017 MPO/RPO Ethics training webinar can be viewed at the following location: <https://livestream.com/NC-DOT/events/7161243>

Corridor Studies: TPD has recently made the decision to temporarily pause the development of the STC Master Plans in order to reevaluate the scope and deliverables to make it a more useful and effective end product. A work group of internal and external partners to help reexamine this effort is currently being formed.

Wilmington CTP – With the model update, WMPO has also asked TPD to start on the Wilmington CTP update. We have yet to develop a schedule for this CTP and start – but once the Wilmington Model is fully completed, TPD will develop a schedule.

RPO Program Reviews: FHWA submitted their findings and recommendations for improvement to NCDOT. TPD has developed an action plan to address the recommendations. FHWA, NCDOT and the RPO Administrative Documents Committee with collaborate on the implementation of resulting changes.

CMAQ: Applications for funding in FFY 2019 were due by March 15, 2018.

Traffic Forecast: The Traffic Forecast shapefile is under development (ArcGIS Online).

HERE Data: HERE Data is available for use for NCDOT business purposes, subsequently being available for RPO use. Data available for travel times and speed measures across the state. Program available at: <https://pda.ritis.org/suite>

FHWA News: Functional Classification - FHWA has an interactive map that shows the Federal highway system, freight network, fatal crashes, MPO information, and demographic maps at the county level.

Build NC: Governor Roy Cooper on Wednesday June 20, 2018 - signed into law the Build NC Bond Act of 2018, a new financing tool sought by his administration to help expedite critical highway projects. Build NC is a financing tool similar to Garvee bonds and is an important way to move critical projects forward. It is important to note that it is not new revenue, but borrowing authority to implement projects sooner. The focus is for projects in the regional and Division tiers.

CTP 2.0: TPD leadership is reviewing elements for CTP 2.0 and coordinating with the CTP 2.0 steering committee as we prepare for implementation of improved maps, classifications, analysis, plan documentation, and changes to the process for developing CTPs in NC. (A CTP Steering Committee meeting was held June 18, 2018.) Improving the CTPs for NCDOT and local partners has proven to be a complex process with many benefits and “ripple effects” as we move future proposals into project implementation.
