Independent Auditor's Report

Executive Committee
Cape Fear Council of Governments

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cape Fear Council of Governments (the Council) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and aggregate remaining fund information of Cape Fear Council of Governments as of June 30, 2020, and the respective changes in financial position and the respective budgetary comparisons of the major funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4-9 and the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Liability (Asset) and Contributions on pages 33-34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Cape Fear Council of Governments' basic financial statements. The schedules and other information listed in the table of contents as supplementary information, and the Schedule of Expenditures of Federal and State Awards, as required by Title 2 US Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, (Uniform Guidance) and the State Single Audit Implementation Act listed in the table of contents in the compliance section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules and other information listed in the table of contents as supplementary information and the Schedule of Expenditures of Federal and State Awards identified in the preceding paragraph are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules and other information listed in the table of contents as supplementary information and the Schedule of Expenditures of Federal and State Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2021, on our consideration of the Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Council's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cape Fear Council of Governments' internal control over financial reporting and compliance.

Management's Discussion and Analysis

Cape Fear Council of Governments

Management's Discussion and Analysis (Unaudited)

As management of Cape Fear Council of Governments (Council), we offer readers of the Council's financial statements this narrative overview and analysis of the financial activities of the Council for the fiscal year ended June 30, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Council's financial statements, which follow this narrative.

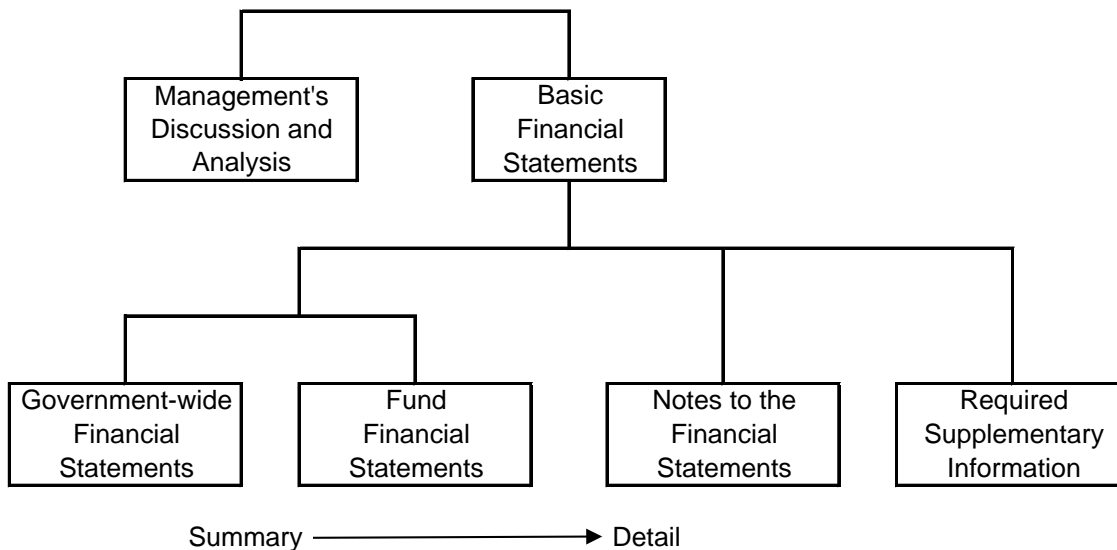

Financial Highlights

- The assets and deferred outflows of the Council *exceeded* its liabilities and deferred inflows at the close of the fiscal year by \$487,021 (net position).
- The Council's total net position *decreased* by \$2,632 from June 30, 2019 to June 30, 2020, primarily due to an increase in expenditures that are not grant reimbursable and the retirement of capital assets this fiscal year.
- As of the close of the current fiscal year, the Council's general fund reported ending fund balance of \$531,230, an *increase* of \$100,964 from June 30, 2019. Approximately 95.6% of this total amount, or \$507,946, which is the general fund's unassigned fund balance, is available for spending at the Council's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$507,946, or 22.0% of total expenditures for all funds (excluding pass through expenditures) for the fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Council's basic financial statements. The Council's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the Council through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Council.

Figure 1

Cape Fear Council of Governments

Management's Discussion and Analysis (Unaudited)

Basic Financial Statements

The first two statements (pages 10 and 11) in the basic financial statements are the **Government-Wide Financial Statements**. They provide both short- and long-term information about the Council's financial status.

The next statements (pages 12 through 16) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Council's government. These statements provide more detail than the government-wide statements. Budgetary information required by the General Statutes can be found in this part of the statements.

The next section of the basic financial statements is the **Notes to Financial Statements**. The notes to financial statements explain in detail some of the data contained in those statements. After the notes, **required supplementary information** and **supplementary information** is provided to show details about the Council's individual funds. More budgetary information required by the General Statutes can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Council's finances on the accrual basis, similar in format to financial statements of a private-sector business. The government-wide financial statements provide short- and long-term information about the Council's financial status as a whole.

The two government-wide financial statements report the Council's net position and how it has changed. Net position is the difference between the Council's total assets and deferred outflows and total liabilities and deferred inflows. Measuring net position is one way to gauge the Council's financial condition.

The government-wide financial statements present governmental activities which are divided into five categories: (1) General; (2) Aging; (3) Workforce Development; (4) Continuum of Care; and (5) Non-major funds. The governmental activities include the Council's basic services. State and federal grant funds finance most of these activities.

The government-wide financial statements are on pages 10 and 11 of this report.

Fund Financial Statements

The fund financial statements provide a more detailed look at the Council's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Council, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Council's budget ordinance. All of the funds of the Council are governmental funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. All of the Council's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Council's programs. The relationship between government activities (reported in the statement of net position and the statement of activities) and governmental funds is described in reconciliations that are a part of the fund financial statements.

Cape Fear Council of Governments

Management's Discussion and Analysis (Unaudited)

The Council adopts an annual budget for all funds as required by North Carolina General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Council's member local governments, the management of the Council and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Council to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Council complied with the budget ordinance and whether or not the Council succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting (the modified accrual basis) and is presented using the same format, language and classifications as the legal budget document. The statement shows four columns: (1) the original budget as adopted by the board; (2) the final budget as amended by the board; (3) the actual resources, charges to appropriations and ending balances in the General Fund; and (4) the difference or variance between the final budget and the actual resources and charges.

Notes to Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 17 through 32 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain other supplementary information. That information can be found beginning on page 33 of this report.

Government-Wide Financial Analysis

| | Governmental Activities | |
|--------------------------------|-------------------------|-------------------|
| | 2020 | 2019 |
| Current and other assets | \$ 1,598,751 | \$ 1,490,597 |
| Capital assets | 7,408 | 16,087 |
| Total assets | 1,606,159 | 1,506,684 |
| Deferred outflows of resources | 268,845 | 303,186 |
| Other liabilities | 905,306 | 919,814 |
| Net pension liability | 402,538 | 329,993 |
| Long-term liabilities | 80,139 | 68,701 |
| Total liabilities | 1,387,983 | 1,318,508 |

| Net position: | | |
| Investment in capital assets | 7,408 | 16,087 |
| Restricted: | | |
| Stabilization by state statute | 1,067,121 | 1,060,331 |
| Unrestricted (deficit) | (587,508) | (586,765) |
| Total net position | \$ 487,021 | \$ 489,653 |

Cape Fear Council of Governments

Management's Discussion and Analysis (Unaudited)

Net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of the Council exceeded liabilities and deferred inflows by \$487,021 as of June 30, 2020. The Council's net position *decreased* by \$2,632 from June 30, 2019 to June 30, 2020. Additionally, \$7,408 of the net position is invested in capital assets, \$1,067,121 is restricted and the remaining balance (a deficit) of (\$587,508) is unrestricted.

| | Governmental Activities | |
|------------------------------------|-------------------------|-------------------|
| | 2020 | 2019 |
| Revenues: | | |
| Program revenues: | | |
| Charges for services | \$ 272,672 | \$ 205,222 |
| Operating grants and contributions | 9,049,773 | 8,458,806 |
| General revenues: | | |
| Local dues | 225,300 | 215,589 |
| Investment earnings, unrestricted | 5,217 | 7,902 |
| Total revenues | 9,552,962 | 8,887,519 |
| Expenses: | | |
| General government | 28,926 | 13,859 |
| Area agency on aging | 4,985,553 | 4,508,748 |
| Continuum of care | 264,960 | 554,429 |
| Local government services | 409,139 | 498,713 |
| Workforce development | 3,867,016 | 3,259,787 |
| Total expenses | 9,555,594 | 8,835,536 |
| Change in net position | (2,632) | 51,983 |
| Net position, July 1 | 489,653 | 437,670 |
| Net position, June 30 | \$ 487,021 | \$ 489,653 |

Governmental Activities. Governmental activities decreased the Council's net position by \$2,632, thereby accounting for 100% of the total decrease in the net position of the Council. Key elements of this decrease are as follows:

- Increase in expenditures that are not grant reimbursable and the retirement of capital assets this fiscal year.

Cape Fear Council of Governments

Management's Discussion and Analysis (Unaudited)

Financial Analysis of the Council's Funds

As noted earlier, the Council uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Council's governmental funds is to provide information on near-term inflows, outflows and balances of usable resources. Such information is useful in assessing the Council's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the Council. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$507,946, while total fund balance of the General Fund was \$531,230. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. General Fund unassigned fund balance represents 22.0% of total expenditures for all funds (excluding pass through expenditures).

At June 30, 2020, the governmental funds of the Council reported a combined fund balance of \$693,445, an approximate 21.5% increase from last year.

Budgetary Highlights. During the fiscal year, the Council revised the budget on several occasions. Generally, budget amendments fall into one of four categories: (1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; (2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; (3) increases in locally generated funds for planning service contracts and providing training workshops; and (4) decreases of federal and/or State grants due to reversion of under-utilized funds. Total amendments increased the Council's budgeted revenues by \$5,522,220. The increase was due to several factors:

- a. More than half of the budget increases are a result of the Council being awarded Families First Coronavirus Relief Act (FFCRA) and Coronavirus Aid, Relief, and Economic Security (CARES) Act funds. The Aging Program was awarded funds from both stimulus bills. The Continuum of Care, Local Government Services, and Workforce Development programs received CARES Act funds. These awards all carry forward into the next fiscal year.
- b. The remaining budget increases result from higher prior fiscal year carryover amounts than were budgeted in the Continuum of Care, Local Government Services, and Workforce Development programs. Additionally, the Aging and Workforce Development programs increased from higher actual funding allocations than were anticipated when the original budget was prepared.

Approximately 77% of the Council's final budget is for contracted services or pass-through funds to other agencies. Should these agencies not provide the level of services for which they have been contracted, they do not receive reimbursement.

Capital Asset and Debt Administration

Capital Assets. The Council's investment in capital assets for its governmental activities as of June 30, 2020, totals \$7,408 (net of accumulated depreciation). These assets include computer network servers, a telephone system and a printer-plotter.

Additional information on the Council's capital assets can be found in Note 1.F.5. and Note 2.A.1. of the Basic Financial Statements.

The Council does not have any long-term obligations other than accrued compensated absences and its pro-rata share of the net pension liability of the NC Local Government Employees Retirement System.

Cape Fear Council of Governments

Management's Discussion and Analysis (Unaudited)

Economic Factors and Next Year's Budgets and Rates

The following key economic indicators reflect the stability and prosperity of the Council.

- Despite disruptions from the Coronavirus pandemic to the Cape Fear region's social and economic systems, the Council anticipates that our net position and fund balance will remain consistent during the next fiscal year. Our members have indicated that they will continue to support next year's budget with dues and matching funds at the same rate as previous years.
- In reaction to the pandemic, the federal government passed multiple economic stimulus bills. All of the Council's programs received funds from stimulus grants that will carry forward into the 2020-21 fiscal year. The Council is also exploring opportunities to apply for additional funding through federal and state agencies to help our communities rebound from the effects of pandemic.
- Since the Council's funding depends on federal and state grants, the Council's management team will continue to monitor industry update concerning federal and state appropriations and will adjust expenditure and budget projections to reflect any changes to current estimates.

Requests for Information

This report is designed to provide an overview of the Council's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to Dawn Tucker, Finance Officer, Cape Fear Council of Governments, 1480 Harbour Drive, Wilmington, NC 28401, dtucker@capefearcog.org, (910) 395-4553.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

The accounting policies of Cape Fear Council of Governments (the Council) conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies.

A. Reporting Entity

The Council was established in 1972 to perform and carry out such powers, duties and responsibilities as authorized by North Carolina legislation. The Council is one of the 18 regional planning and management agencies serving local governments in North Carolina. The Council serves Region O, which includes Brunswick, Columbus, New Hanover and Pender Counties and the municipalities within their boundaries as a jointly governed organization. Working under the direction of locally elected officials representing member governments, the Council plans and administers a variety of federal, state and local programs.

As described below, although the Council is accounted for as a governmental entity, the Council does not have the statutory authority to levy taxes or issue bonds.

The financial statements do not include any component units, legally separate entities for which the Council is considered to be financially accountable, because no such component units exist. Additionally, the Council is not considered to be a component unit of any other government.

B. Basis of Presentation and Measurement Focus Basis of Accounting

Basis of Presentation

Government-Wide Statements: The statement of net position and the statement of activities display information about the primary government (the Council). These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of a local government unit. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. The Council has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Council's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have not been reversed for the statement of activities. Program revenues include: (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Council's funds. The Council currently only maintains governmental funds. The emphasis of governmental fund financial statements is on major governmental funds, each displayed in a separate column, along with a column for aggregate non-major funds.

The Council reports the following major governmental funds:

General Fund – The General Fund accounts for and reports all financial resources not accounted for and reported in another fund.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Aging Programs Special Revenue Fund – The Aging Programs Fund facilitates the receipt of federal and state grants and the disbursement of the grant money to local governments and nonprofit agencies who fulfill the grant requirements by providing services to the state's elderly (60+) population, enabling those individuals to remain in their homes for as long as possible while at the same time providing care and a safe environment in their later years.

Workforce Development Programs Special Revenue Fund – The Workforce Development Programs Fund facilitates the receipt of federal and state grants and the disbursement of the grant money to state agencies, local governments and nonprofit agencies who fulfill the grant requirements by providing services designed to help Americans access the tools they need to manage their careers through information and high-quality services, and to help U.S. companies find skilled workers.

The Council reports the following non-major governmental funds:

Continuum of Care Fund – The Continuum of Care Fund accounts for activities designed to promote communitywide commitment to the goal of ending homelessness; provide funding for efforts by nonprofit providers, and state and local governments to quickly rehouse homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families and communities by homelessness; promote access to and effect utilization of mainstream programs by homeless individuals and families; and optimize self-sufficiency among individuals and families experiencing homelessness.

Local Government Services Fund – The Local Government Services Fund accounts for activities designed to assist local area governments in developing growth plans and any other activity that may assist local governments in planning for the future of their communities.

Measurement Focus/Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the Council are maintained during the year using the modified accrual basis of accounting.

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available (available is defined as: cash to be received within 90 days after fiscal year-end). Expenditures are recorded when the related fund liability is incurred, except for claims and judgements, compensated absences, and pension expenses, which are recognized as expenditures to the extent they are due and have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

Grant proceeds received but unearned at year-end are recorded as unearned revenues. Under the terms of grant agreements, the Council funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position and fund balance available to finance the program. It is the Council's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

C. Budgetary Data

The Council's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the general fund and the special revenue funds. All annual appropriations lapse at the fiscal year-end.

All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the fund level for all annually budgeted funds. Amendments are required for any revisions that alter total expenditures of any fund by more than \$5,000. The governing board must approve all amendments. During the year, several amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

D. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reporting amounts in the financial statements and related note disclosures during the period. Actual results could differ from those estimates.

E. Indirect Costs

Indirect costs in program or project expenditures are those costs not readily assignable to a program or incurred for a common or joint purpose benefiting more than one program or project. Indirect costs are charged to programs or projects during the year based on direct salaries and fringe benefits using a cost methodology plan.

As a local government entity, and a public authority, the Council complies with the indirect cost methodology regulated by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the North Carolina State Treasurer Policies, Section 55, User Fees – Utilizing Expense/Expenditure Information.

Per definition of the Uniform Grant Guidance, the Council is a multi-function entity. The multi-functions include five categories or functions: General Government, Aging Programs, Workforce Development, Local Government Services and Continuum of Care. To comply with the requirements of CFR §200.56, the Council captures all indirect costs into one separate cost pool at the time of expenditure. On a monthly basis, the indirect costs are allocated to each function, and to individual awards and activities within that function, by means of the indirect cost methodology – direct salaries and wages. Each month a percentage relationship is determined between salaries of a particular award or activity and its relation to the total salaries for the Council as a whole. The determined percentage is applied to all indirect costs held in the pool. The indirect costs are then distributed to indirect line-items within each award or activity on that basis.

F. Assets, Liabilities, Deferred Inflows of Resources and Fund Equity

1. Deposits and Investments

All deposits of the Council are made in board-designated official depositories and are collateralized as required by North Carolina General Statute 159-31. The Council may designate as an official depository, any bank or savings association whose principal office is located in North Carolina. The Council may establish time deposits such as NOW and SuperNOW accounts, money market accounts and certificates of deposit.

At June 30, 2020, the carrying amount of the Council's deposits was \$116,570 and the bank balance was \$884,740.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

All of the Council's deposits are either insured or collateralized under the Pooling Method, a system of state-wide single financial institution collateral pools, whereby all uninsured deposits are collateralized with securities held by the state treasurer's agent in the name of the state treasurer. Since the state treasurer is acting in a fiduciary capacity for the Council, these deposits are considered to be held by the Council's agent in the Council's name. The amount of the pledged collateral is based on an approved averaging method for non-interest-bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the state treasurer the adequacy of their pooled collateral covering uninsured deposits. The state treasurer does not confirm this information with the Council or the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Council under the Pooling Method, the potential exists for under collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each Pooling Method depository. Of the bank balance, \$250,000 was covered by federal depository insurance and \$634,740 was covered by collateral held under the Pooling Method. The Board has no formal policy regarding custodial credit risk for deposits, but informally complies with North Carolina General Statute 159-31.

North Carolina General Statute 159-30(c) authorizes the Council to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain nonguaranteed federal agencies; certain high-quality issues of commercial paper and bankers' acceptances; and the North Carolina Capital Management Trust (NCCMT).

The Council's investments with a maturity of more than one year at acquisition and non-money market investments are carried at fair value as determined by quoted market prices. The Council's investments in the NCCMT Government Portfolio, a SEC-registered (2a7) money market mutual fund, are valued at fair value, which is the NCCMT's share price. Because the NCCMT Government portfolio has a weighted average maturity of less than 90 days, it is presented as an investment with less than 6 months maturity. At June 30, 2020, the Council's investments consisted of \$445,890 and were limited to the NCCMT Government Portfolio, which carried a credit rating of AAAM by Standard and Poor's. The Council has no formal policy regarding credit risk.

The Council had one type of investment, NCCMT Government Portfolio, which was categorized as having a Level 1 fair value measurement method.

2. Cash and Cash Equivalents

The Council pools substantially all of its funds in its General Fund to facilitate disbursement and investment and to maximize investment income. Deposits and investments with a maturity date of three months or less are considered cash or cash equivalents.

3. Allowances for Doubtful Accounts

The Council does not maintain an allowance for doubtful accounts. Losses arising from uncollected accounts receivable are estimated to be insignificant.

4. Prepaid Costs

Prepaid costs consist of various prepaid operational expenses.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

5. Capital Assets

Purchased capital assets are reported at cost in the government-wide financial statements. Minimum capitalization costs are as follows: furniture and equipment and all other capital assets, \$5,000. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets of the Council are depreciated on a straight-line basis over the following estimated useful lives:

| | <u>Years</u> |
|-------------------------------|--------------|
| Office and computer equipment | 3-7 |

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position/balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position or fund balance that applies to a future period and so will not be recognized as an expense or expenditure until then. The Council has two items that meet the criterion for this category in the government-wide financial statements: contributions made to the pension plan in the 2020 fiscal year and other pension related deferrals. In addition to liabilities, the statement of net position/balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then.

7. Compensated Absences

The vacation policies of the Council provide for the accumulation of up to 225 hours earned vacation leave with such leave being fully vested when earned. Upon termination of employment, the entire accumulated vacation leave balance is paid out based on the compensation rate in effect at the date of termination. For the Council's government-wide financial statements, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned. At June 30, 2020, the Council had accrued \$80,139 for earned vacation leave. This amount is included in long-term liabilities on the accompanying statement of net position.

In the governmental fund financial statements, an expenditure and a liability for compensated absences is recorded when due and payable, which occurs when the vacation is used or upon termination of an eligible employee.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

8. Net Position/Fund Balances

Net Position

Net position in government-wide financial statements is classified as investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of three classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund balance types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either: (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Prepays – Portion of fund balance that is not an available resource because it represents the year-end balances of ending prepaids, which are not spendable resources.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for stabilization by state statute – Portion of fund balance, which is not available for appropriation under State law [G.S. 159-8(a)]. This amount is usually comprised of accounts receivable and interfund receivables, which are not offset by unearned revenues.

Restricted for aging programs – Portion of fund balance that is restricted by revenue source for use with aging programs.

Restricted for workforce programs – Portion of fund balance that is restricted by revenue source for use with workforce programs.

Restricted for local government services – Portion of fund balance that is restricted by revenue source for use with local government service programs.

Restricted for continuum of care – Portion of fund balance that is restricted by revenue source for use with continuum of care programs.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of the Council's governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance – The portion of fund balance that the Council intends to use for specific purposes.

Unassigned Fund Balance – The portion of fund balance that has not been restricted, committed or assigned to specific purposes or other funds.

Cape Fear Council of Governments

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

9. Pensions

The Council participates in a cost-sharing multiple-employer, defined benefit plan that is administered by the state of North Carolina.

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Governmental Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Council's employer contributions are recognized when due and the Council has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. LGERS' investments are reported at fair value.

Note 2. Detail Notes on All Funds

A. Assets

1. Capital Assets

Capital asset activity for the year ended June 30, 2020, is as follows:

| | Beginning Balances | Additions | Deletions | Ending Balances |
|--|-----------------------|-------------------|-----------------|--------------------|
| Governmental activities: | | | | |
| Capital assets being depreciated: | | | | |
| Equipment | \$ 46,002 | \$ - | \$ 14,976 | \$ 31,026 |
| Less accumulated depreciation for equipment | 29,915 | 5,337 | 11,634 | 23,618 |
| Governmental activity capital assets, net | <u>\$ 16,087</u> | <u>\$ (5,337)</u> | <u>\$ 3,342</u> | <u>\$ 7,408</u> |

Depreciation expense charged to functions/programs of the primary government is as follows:

| | |
|---------------------------|-----------------|
| General Government | \$ 3,151 |
| Aging Programs | 537 |
| Workforce Development | 313 |
| Local Government Services | 1,336 |
| | <u>\$ 5,337</u> |

Cape Fear Council of Governments

Notes to Financial Statements

Note 2. Detail Notes on All Funds (Continued)

B. Liabilities and Deferred Inflows of Resources

1. Pension Plan Obligations

North Carolina Local Governmental Employees' Retirement System

Plan Description – The Council is a participating employer in the statewide LGERS, a cost-sharing, multiple-employer, defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives and the State Treasurer and State Superintendent, who serve as ex-officio members. LGERS is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454 or at www.osc.nc.gov.

Benefits Provided – LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

Contributions – Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. The Council's employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Council's contractually required contribution rate for the year ended June 30, 2020, was 8.95% of compensation, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the Council were \$93,686 for the year ended June 30, 2020.

Refund of Contributions – Council employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60-day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Note 2. Detail Notes on All Funds (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Council reported a liability of \$402,538 for its proportionate share of the LGERS net pension liability. The net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. The total pension liability was then rolled forward to the measurement date of June 30, 2019, utilizing update procedures incorporating the actuarial assumptions. The Council's proportion of the net pension liability was based on a projection of the Council's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2020, the Council's proportion was 0.01474%, which was an increase of approximately 0.0083% from its proportion as of June 30, 2019.

For the year ended June 30, 2020, the Council recognized pension expense of \$105,177. At June 30, 2020, the Council reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------------|-------------------------------------|
| Differences between expected and actual experience | \$ 68,929 | \$ - |
| Changes in assumptions | 65,604 | - |
| Net difference between projected and actual earnings on pension plan investments | 9,819 | - |
| Changes in proportion and differences between Council contributions and proportionate share of contributions | 30,807 | - |
| Contributions subsequent to the measurement date | 93,686 | - |
| | <u>\$ 268,845</u> | <u>\$ -</u> |

\$93,686 reported as deferred outflows of resources related to pensions resulting from Council's contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| | |
|-----------------------|-------------------|
| Years ending June 30: | |
| 2020 | \$ 84,153 |
| 2021 | 31,047 |
| 2022 | 46,001 |
| 2023 | 13,958 |
| | <u>\$ 175,159</u> |

Cape Fear Council of Governments

Notes to Financial Statements

Note 2. Detail Notes on All Funds (Continued)

Actuarial Assumptions – The total pension liability in the December 31, 2018 actuarial valuation, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|---------------------------|--|
| Inflation | 3.0% |
| Salary increases | 3.50 to 8.10%, including inflation and productivity factor |
| Investment rate of return | 7.00%, net of pension plan investment expense, including inflation |

The plan currently uses mortality tables that vary by age, gender, employee group (i.e., general, law enforcement officer) and health status (i.e., disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2018 valuation, were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

Cape Fear Council of Governments

Notes to Financial Statements

Note 2. Detail Notes on All Funds (Continued)

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019, are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|----------------------|-------------------|--|
| Fixed Income | 29.0% | 1.4% |
| Global Equity | 42.0% | 5.3% |
| Real Estate | 8.0% | 4.3% |
| Alternatives | 8.0% | 8.9% |
| Credit | 7.0% | 6.0% |
| Inflation Protection | 6.0% | 4.0% |
| | <u>100%</u> | |

The information above is based on 30-year expectations developed with the consulting actuary for the 2016 asset liability and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

Discount rate – The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Cape Fear Council of Governments

Notes to Financial Statements

Note 2. Detail Notes on All Funds (Continued)

Sensitivity of the Council's proportionate share of the net pension liability to changes in the discount rate – The following presents the Council's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the Council's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

| | 1% Decrease (6.00%) | Discount Rate (7.00%) | 1% Increase (8.00%) |
|--|---------------------------|-----------------------------|---------------------------|
| Council's proportionate share of the net pension liability (asset) | \$ 920,678 | \$ 402,538 | \$ (28,141) |

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued Comprehensive Annual Financial Report (CAFR) for the State of North Carolina.

2. Unearned Revenue

The balance in unearned revenue at June 30, 2020, which generally consists of money received from the various funding sources in advance, is comprised of the following:

| | |
|---------------------------|-------------------|
| Aging Programs Fund | |
| Aging administration | \$ 23,108 |
| General Fund | |
| Charges for services | 2,684 |
| Workforce Investment Fund | |
| Advance drawdowns | 100,121 |
| Nonmajor Fund | |
| Local government services | 10,749 |
| | <u>\$ 136,662</u> |

3. Changes in Long-Term Liabilities

| | Beginning Balance | Additions | Deletions | Ending Balance |
|--------------------------|----------------------|-----------|-----------|-------------------|
| Governmental activities: | | | | |
| Compensated absences | \$ 68,701 | \$ 26,442 | \$ 15,004 | \$ 80,139 |

Cape Fear Council of Governments

Notes to Financial Statements

Note 2. Detail Notes on All Funds (Continued)

C. Interfund Balances and Transfer Activity

All cash accounts are recorded in the general fund and, as a result, interfund receivables and payables exist. Short-term interfund receivables and payables at June 30, 2020, were as follows:

| Fund | Receivable | Payable |
|--------------------------------|------------------|------------------|
| General Fund | \$ - | \$ 48,949 |
| Aging Programs Fund | 47,620 | 271 |
| Workforce Development Fund | - | 12,851 |
| Local Government Services Fund | 1,059 | - |
| Continuum of Care Fund | 13,392 | - |
| | <u>\$ 62,071</u> | <u>\$ 62,071</u> |

Transfer to/from other funds at June 30, 2020 consist of the following:

| Fund | Transfers In | Transfers Out |
|--------------------------------|-------------------|-------------------|
| General Fund | \$ - | \$ 113,020 |
| Aging Programs Fund | 76,918 | - |
| Local Government Services Fund | 36,102 | - |
| | <u>\$ 113,020</u> | <u>\$ 113,020</u> |

The General Fund provides the basis of local resources for the special revenue funds. These transactions are recorded as "Transfers out" or "Transfer of local matching funds" in the General Fund and "Transfers in" or "Transfer of local matching funds" in the receiving fund.

D. Fund Balance

The Council has a revenue spending policy for programs with multiple revenue sources. The Finance Officer works with the Department Director to ensure the use of resources in the following hierarchy: federal funds, state funds, local funds and Council funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed, assigned and unassigned fund balance. The Finance Officer has Board authorization to deviate from this policy if it is in the best interest of the Council. The following shows to the public the portion of the General Fund balance that is available for appropriation:

| | |
|-----------------------------------|-------------------|
| Total fund balance - General Fund | \$ 531,230 |
| Less: | |
| Nonspendable fund balance | 16,553 |
| Stabilized by state statute | 6,731 |
| Remaining fund balance | <u>\$ 507,946</u> |

Cape Fear Council of Governments

Notes to Financial Statements

Note 3. Summary Disclosure of Other Significant Commitments and Contingencies

A. Risk Management

The Council is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Council participates in two self-funded risk financing pools administered by the North Carolina League of Municipalities. Through these pools, the Council has general liability and auto liability coverage of \$1,000,000 per occurrence and workers' compensation coverage in accordance with statutory limits. The pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability and property in excess of \$500,000 and \$1,000,000 up to statutory limits for workers' compensation. The Council carries commercial insurance for all other risks of loss. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded commercial insurance coverage in any of the past five fiscal years.

In accordance with G.S. 159-29, the Council's employees that have access to \$100 or more at any given time of the Council's funds are performance bonded through a commercial surety bond. The finance officer is individually bonded for \$100,000. In addition, all employees are bonded under a blanket employee dishonesty bond for \$100,000.

B. Operating Leases

The Council is committed under an office space lease, which is considered for accounting purposes to be an operating lease. If operational funding is not available for the Council, the Council may vacate the premises and void this lease provided the Council has given 60 days' written notice to the landlord. The Council also has non-cancelable leases for certain office buildings and office equipment. Rent under these leases for the year ended June 30, 2020, amounted to \$265,183. Future minimum lease payments for the office and equipment leases are as follows:

| | |
|-----------------------|---------------------|
| Years ending June 30: | |
| 2021 | \$ 284,176 |
| 2022 | 286,053 |
| 2023 | 289,480 |
| 2024 | 206,398 |
| 2025 | 183,520 |
| Thereafter | 45,500 |
| | <u>\$ 1,295,127</u> |

The Council also leases additional storage space on a year-to-year basis and rents meeting space on an as-needed basis.

C. Federal and State Assisted Programs

The Council has received significant amounts of proceeds from federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies.

Cape Fear Council of Governments

Notes to Financial Statements

Note 4. Related Party Transactions

During the year ended June 30, 2020, the Council received and recorded dues revenues of approximately \$180,000 from member governments, including Brunswick, Columbus, New Hanover and Pender Counties and the municipalities within their boundaries.

Also during the year ended June 30, 2020, the Council expended the following amounts to member governments, in the form of pass-through monies:

| | |
|--|---------------------|
| Columbus County | \$ 694,914 |
| New Hanover County | 1,425,138 |
| Pender County, directed to Pender Adult Services | 571,015 |
| Brunswick County, directed to Brunswick Senior Resources, Inc. | 1,461,918 |
| | <u>\$ 4,152,985</u> |

Note 5. Pronouncements Issued, Not Yet Implemented

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2020, that have effective dates that may affect future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statement may have on the financial statements of the Council:

GASB Statement Number 87, *Leases*, will be effective for the Council beginning with its year ending June 30, 2022.

GASB Statement Number 90, *Majority Equity Interests*, will be effective for the Council beginning with its year ending June 30, 2021.

GASB Statement Number 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, will be effective for the Council beginning with its year ending June 30, 2021.

GASB Statement Number 92, *Omnibus 92*, will be effective for the Council beginning with its year ending June 30, 2022.

GASB Statement Number 93, *Replacement of Interbank Offered Rates*, will be effective for the Council beginning with its year ending June 30, 2022.

GASB Statement Number 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, will be effective for the Council beginning with its year ending June 30, 2022.

GASB Statement Number 91, *Conduit Debt Obligations*, will be effective for the Council beginning with its year ending June 30, 2023.

GASB Statement Number 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will be effective for the Council beginning with its year ending June 30, 2023.

GASB Statement Number 96, *Subscription-Based Information Technology Arrangements*, will be effective for the Council beginning with its year ending June 30, 2023.

Cape Fear Council of Governments

Notes to Financial Statements

Note 6. COVID-19

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Authority operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Council.

**Independent Auditor's Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

Executive Committee
Cape Fear Council of Governments

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cape Fear Council of Governments (the Council) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements, and have issued our report thereon dated January 29, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Council's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs that we consider to be a significant deficiency (2020-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Council's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Council's Response to the Finding

The Council's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The Council's response was not subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RSM US LLP

Wilmington, North Carolina
January 29, 2021

**Independent Auditor's Report on Compliance
for the Major Federal Program and Report on Internal Control
Over Compliance Required by the Uniform Guidance**

Executive Committee
Cape Fear Council of Governments

Report on Compliance for Each Major Federal Program

We have audited Cape Fear Council of Governments' (the Council) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina* issued by the Local Government Commission that could have a direct and material effect on the Council's major federal program for the year ended June 30, 2020. The Council's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Council's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State Single Audit Implementation Act. Those standards, the Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination on the Council's compliance.

Opinion on the Major Federal Program

In our opinion, the Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Council is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Council's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as item 2020-002 that we consider to be a significant deficiency.

The Council's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Council's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Independent Auditor's Report on Compliance
for the Major State Program and Report on Internal Control
Over Compliance Required by the State Single Audit Implementation Act**

Executive Committee
Cape Fear Council of Governments

Report on Compliance for the Major State Program

We have audited Cape Fear Council of Governments' (the Council) compliance with the types of compliance requirements described in the *Audit Manual for Governmental Auditors in North Carolina* issued by the Local Government Commission that could have a direct and material effect on the Council's major state program for the year ended June 30, 2020. The Council's major State program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Council's major State program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the applicable sections of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) as described in the *Audit Manual for Governmental Auditors in North Carolina*, and the State Single Audit Implementation Act. Those standards, the applicable sections of the Uniform Guidance, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major State program occurred. An audit includes examining, on a test basis, evidence about the Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major State program. However, our audit does not provide a legal determination on the Council's compliance.

Opinion on the Major State Program

In our opinion, the Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major State program for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the Council is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Council's internal control over compliance with the types of requirements that could have a direct and material effect on the major State program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a State program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying Schedule of Findings and Questioned Costs as item 2020-003.

The Council's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The Council's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State Single Audit Implementation Act. Accordingly, this report is not suitable for any other purpose.

Year Ended June 30, 2020**

Section II – Financial Statement Findings

Finding 2020-001:

Significant Deficiency in Internal Control – Segregation of Duties

| | |
|-------------------------------------|--|
| Criteria: | Duties should be segregated to provide reasonable assurance that transactions are handled properly. |
| Condition: | There are inherent limitations in the effectiveness of the internal controls due to the lack of segregation of duties among the Council's personnel. Journal entry approval, in some circumstances, may not be properly segregated from their origination. |
| Effect: | Journal entries may not be subject to review by someone not involved with their origination, and errors or irregularities may be more likely to occur without being detected. |
| Cause/Context: | Due to budgetary constraints, there is a limited number of personnel in certain functions. |
| Identification of a repeat finding: | This is a repeat of finding 2019-001 from the immediate previous audit. |
| Recommendation: | The duties should continue to be separated as much as possible and alternative controls implemented as practical. The governing board may continue to provide some of these controls. |
| Views of responsible officials: | Refer to the Corrective Action Plan |

Section III – Federal Award Findings and Questioned Costs

Finding 2020-002:

Significant Deficiency in Internal Control over Compliance – Segregation of Duties

Federal Agency: U.S. Department of Health and Human Services

CFDA: CFDA 93.044, 93.045 and 93.053
Compliance requirements = A, B, G, M and N.

The limited size of the Council's staff, as described in Finding 2020-001 under Government Auditing Standards findings, also applies to the Council's major federal awards (repeat finding)

Pass-Through Entities: Brunswick Senior Resources, Inc.
Columbus County Dept. of Aging
Legal Services of the Lower Cape Fear
New Hanover County Dept. of Aging
Pender Adult Services

Questioned Cost: None identified.

Section IV – State Award Findings and Questioned Costs

Finding 2020-003:

Significant Deficiency in Internal Control over Compliance – Segregation of Duties

State Agency: N.C. Department of Health and Human Services

Compliance requirements = A, B, G, H, L, M and N.

Cape Fear Council of Governments

**Notes to the Schedule of Expenditures of Federal and State Awards
Year Ended June 30, 2020**

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal and State awards includes the federal and State grant activity of Cape Fear Council of Governments and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the *State Single Audit Implementation Act*. Therefore some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. The Council has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 2. Subrecipients

Federal and State awards have been passed-through to subrecipients as follows for the year ended June 30, 2020:

| Subrecipient | Program Name | Federal CFDA/ State | | | Total Federal and State Amount |
|---------------------------------------|--------------------------------------|------------------------|-------------------|------------------|--------------------------------------|
| | | Pass-Through Number | Federal Amount | State Amount | |
| Brunswick Senior Resources, Inc. | Preventative Health | 93.043 | \$ 13,769 | \$ 811 | \$ 14,580 |
