Summary of Removed and Delayed Projects in the New DRAFT 2024-2033 STIP (5/26/2022)

This document provides a snapshot summary of the projects that have funding or schedule impacts as a result of the recently released preliminary 2024-33 Draft Statewide Transportation Improvement Program (STIP). The projects are broken into three categories:

1. The projects that have had ALL their funding removed. These projects are still listed in the draft STIP document but are listed as “NOT FUNDED.” This includes some projects that were previously “uncommitted” projects as well as some that were previously considered “committed.” These projects will need to recompile for funding in P7.0 in order to regain funding – projects in this category that were previously “committed” are no longer committed.
2. The projects that have had MOST of their funding removed but will remain funded for preliminary engineering/design work ONLY. These projects are listed in the draft STIP document as “FUNDED FOR PRELIMINARY ENGINEERING ONLY.” Some of these projects were previously considered “committed” projects but are now no longer committed. These projects will need to recompile for funding in P7.0 in order to regain funding.
3. The projects that remain “committed” (now termed “delivery projects”) but may have had changes to their schedule. These projects are listed in the draft STIP document as “SCHEDULED FOR DELIVERY.” Most of these projects for the CFRPO had no change to their current schedule.

It should be noted that a number of additional projects have cost changes reflected in the new draft STIP, but these cost changes did not have an impact on the anticipated schedule, so have not been listed here.

Please note that everything in the April 2022 Draft STIP is subject to change. We anticipate a revised draft STIP will be released in December 2022 and the final 24-33 STIP will be adopted by the NC Board of Transportation in Summer 2023.

At the June 1, 2022 CFRPO RTCC and June 10, 2022 RTAC meetings we will have additional discussion about the draft STIP and the possible methods for swapping projects in and out (if desired).

JUNE TPD UPDATES CAPE FEAR RPO

JUNE 2022

Brunswick County Model: The Brunswick County Model was completed in February of last year.

Brunswick County Comprehensive Transportation Plan (CTP): The Brunswick County CTP went through Peer Review, Management Review and Steering Committee Review. The county has experienced many changes to their land use and transportation network recently. This has led the county to re-evaluate the area and scope of the CTP. While the updated scope is being worked out, TPD will wait and pause the CTP. Once the county is ready to start the efforts back up again, TPD will reach out to the CTP Steering Committee and continue with the next steps.

Columbus County Comprehensive Transportation Plan (CTP): The engineer and planner will start setting up and organizing presentations for updates to local councils, boards and the public soon.

N.C. Governor's Highway Safety Program Grant Applications: The North Carolina Governor's Highway Safety Program (NCGHSP) will soon be accepting grant applications for communities planning traffic safety programs. The grants will be for federal fiscal 2023, which is from Oct. 1, 2022 - Sept. 30, 2023.

Wilmington Model: The 2050 Travel Demand Model work started on 3/1/2022. The TDM is being developed for the next Wilmington MTP. Currently the TPD engineer and modeler are in the data collection phase. TPD has asked the MPO for employment data verification which is due end of August. The next MTP is due end of 2025, and that is also when the TDM will also be adopted by the MPO Board.
