The Cape Fear Rural Transportation Planning Organization serves as the intergovernmental organization for local elected officials, the North Carolina Department of Transportation, and residents of Brunswick, Columbus and Pender Counties to work cooperatively to address transportation issues.

**RESOLUTION ENDORSING THE CITY OF BOILING SPRING LAKES
APPLICATION FOR A NORTH CAROLINA DEPARTMENT OF TRANSPORTATION
IMD FEASIBILITY STUDY GRANT**

WHEREAS, the Rural Transportation Advisory Committee is the duly recognized transportation decision making body for the Cape Fear Rural Planning Organization (CFRPO), as authorized under NCGS §136-211; and

WHEREAS, according to NCGS §136-212, it is the duty of a Rural Transportation Planning Organization to develop long-range local and regional multimodal transportation plans; and

WHEREAS, the North Carolina Department of Transportation (NCDOT) has established a Feasibility Study Grant which provides funding to projects that will result in detailed local bicycle and pedestrian project feasibility studies; and

WHEREAS, the City of Boiling Spring Lakes is applying for funding from the NCDOT for a feasibility study; and

WHEREAS, the Rural Transportation Advisory Committee of the CFRPO feels it to be in its best interest to endorse said project;

NOW THEREFORE, BE IT RESOLVED that the Rural Transportation Advisory Committee of the Cape Fear Rural Planning Organization hereby endorses the Feasibility Study Grant application by the City of Boiling Spring Lakes and if the grant is awarded, will offer to provide technical assistance for the duration of the planning process.

ADOPTED at a regular meeting this 10th day of February 2023.

MEMORANDUM

DATE: 1/28/2023
TO: Cape Fear RPO RTCC
FROM: Patrick Flanagan
RE: Carbon Reduction Program Projects

There have been four Carbon Reduction Program projects submitted to Cape Fear RPO staff. Two of the projects are in the under 5,000 population areas and two are in the between 5,000 and 50,000 population areas. They are as follows:

Projects in Areas of less than 5,000 in Population

Local Government	Project Name	Project Description	Project Cost
Sandy Creek	Pickup Truck Replacement	The project would replace existing Town work pickup truck with a fully electric pickup truck	\$ 100,000
Wallace	Henderson Field Airport Runway Light System LED Replacement Project	The existing runway light system operates on 91 incandescent light fixtures. This lighting system operates at night and during inclement weather conditions to assist aircraft with landing. The project will replace all 91 lights (81 - 45 watt bulbs and 10 - 105 watt bulbs) and fixtures to LED fixtures. The entire fixture must be replaced since they are not capable of an LED conversion.	\$ 504,475

Projects in Areas of between 5,000 and 50,000 in Population

Local Government	Project Name	Project Description	Project Cost
St. James	St. James LED Street Light Project	The proposed project would replace approximately 500 sodium vapor street light fixtures along Town streets with LED fixtures.	\$ 400,000
Columbus County	EV Charging - County Library Sites	Columbus County has several library sites along the several highways bisecting the county. The addition of EV Charging stations at public library locations and at Southeastern Community College would provide access as follows: 1. East Columbus / Riegelwood Library (Hwy 87) 2. Lake Waccamaw Library (Hwy 74/76 -- Future I-74) 3. Whiteville Library (Hwy 74/76 - Future I-74 and Hwy 701 North)	\$ 120,000

		4. Chadbourn Library (Hwy 410) 5. Tabor City Library (Hwy 701 South) 6. Fair Bluff Library (Hwy 76) 7. Southeastern Community College (Hwy 74/76 and Hwy 130) There would be 3 charging stations at each of the library locations and 6 stations at Southeastern Community College.	
--	--	---	--

The Cape Fear RPO is permitted to submit up to eight CRP projects in areas with a population under 5,000 and four projects in areas of between 5,000 and 50,000 in population. Therefore, staff recommends the Cape Fear RPO submit all four of these projects to Transportation Planning Division for potential funding.

The Cape Fear Rural Transportation Planning Organization serves as the intergovernmental organization for local elected officials, the North Carolina Department of Transportation, and residents of Brunswick, Columbus and Pender Counties to work cooperatively to address transportation issues.

Summary of Project Swap Options for the 2024-2033 STIP (1/28/2023)

This document is a summary of the project swap options for the 2024-2033 STIP available to the Cape Fear RPO. The projects are grouped by county, as previously discussed at RTCC and RTAC meetings. If the Cape Fear RPO would like to proceed with any project swaps, the documentation must be provided to the STIP Manager by Friday, March 17th, 2023. Please see the Flexibility Parameters document included in the agenda packet for the full swap conditions and rules. The final 2024-2033 STIP is anticipated to be presented to the Board of Transportation for approval in May 2023.

1. Brunswick County Projects:

STIP#	Tier	Route	Description	CURRENT Draft STIP P.6 Status	COST
U-5932	Statewide	US 17	Convert intersection to interchange	Funded for PE only	\$ 77,011,000
R-5947	Regional	NC 211	Widen NC 211 to 4 lanes from SR 1112 (Sunset Harbour Road) to NC 906 (Mid-way Road)	Not Funded	\$ 57,300,000

2. Pender County Projects

STIP#	Tier	Route	Description	CURRENT Draft STIP P.6 Status	COST
R-5899	Regional	NC 210	SR 1534 (Belt Road) Roundabout	Not funded	\$ 3,760,000
R-5900	Regional	NC 50/ NC 210	SR 1560 (Watts Landing Road) roundabout	Not funded	\$ 7,100,000
R-5877	Regional	US 17	NC 210 (Surf City) Intersection Improvement at US 17 and NC 210	Not Funded	\$ 20,000,000
R-5701	Regional	NC 53	US 117 Business (Walker Street/Wilmington Street) Intersection Improvement	Funded at Regional Impact	\$ 1,670,000
R-5850	Divisional	NC 53	US 117 Bypass to Stag Park Road; Widening to 3 Lanes	Funded at Division Needs	\$ 14,109,000

Pender County has the most opportunities for swapping projects. R-5850 could be removed and either R-5899, R-5900, or both could be swapped in at the Division Needs funding tier.

FLEXIBILITY PARAMETERS FOR THE 2024-2033 DRAFT STIP

Approved by the NC Board of Transportation

February 2, 2022

NCDOT will allow flexibility in programming once the Draft 2024-2033 STIP has been programmed, based on the methodology approved by the Board of Transportation. Project schedules can be adjusted (if funding availability and delivery schedules allow) and projects can be swapped for projects funded in the 2020-2029 STIP selected through P3.0, P4.0, or P5.0 regardless of committed or non-committed status if the following parameters are followed. Note that the schedule(s) of project(s) swapped into Draft 2024-2033 STIP may be different than project(s) swapped out due to funding availability, fiscal constraint, 5/10-year analysis, and/or project delivery schedules.

1. All schedule adjustments and swaps must be agreed to by NCDOT and all affected MPO/RPO(s) in which the project is located. If unanimous agreement is not reached, the schedule adjustment or swap does not occur.
2. The cost of the project(s) being swapped into the Draft STIP must be less than 110% of the cost of the project(s) being swapped out of the Draft STIP.
3. Swaps should generally occur within the same STI Funding Category. However, a Statewide Mobility project that is not selected for funding may be swapped with a project(s) selected for funding in the Regional Impact or Division Needs category. Similarly, a Regional Impact project that is not selected for funding may be swapped with a project(s) selected for funding in the Division Needs category. **Again, in order for any swaps to occur, items #1 and #2 must be met.** Note that a project that was previously committed for funding as a Regional Impact project, cannot be swapped with a Statewide Mobility project(s) selected for funding. Similarly, a project that was previously committed for funding as a Division Needs project, cannot be swapped with a project(s) in the Statewide Mobility or Regional Impact category (i.e., cascading upwards is not allowed even if the project is eligible for funding in a higher STI funding category).
4. Swaps between modes are allowed as long as the minimum highway and non-highway normalization percentages are still met.
5. Justification for any swaps must be thoroughly documented. This information will be made public with the release of the Revised Draft 2024-2033 STIP.

FEBRUARY TPD UPDATES CAPE FEAR RPO

FEBRUARY 2023

Brunswick County Model: The Brunswick County Model was completed in February of last year.

Brunswick County Comprehensive Transportation Plan (CTP): The Brunswick County CTP was paused from January through August of this year. The CTP has resumed, data has been updated, and the CTP has been reviewed by TPD supervisor, unit head and is currently being reviewed by director. Supervisor and unit head comments have been incorporated. As internal reviews are ongoing, the CTP engineer has incorporated PIO feedback and submitted report to NCDOT Communications Office on 1/18 for production. The next steps are to start setting up public involvement sessions and meet with the steering committee to update their adopting/endorsing agencies council and boards.

Columbus County Comprehensive Transportation Plan (CTP): The engineer has submitted the CTP report to RPO for review post public involvement sessions and prior to going into adoptions. After RPO review, the engineer plans to submit the CTP for local adoptions.

Wilmington Model: The 2050 Travel Demand Model (TDM) work started on 3/1/2022. The TDM is being developed for the next Wilmington MTP. Currently the engineer and modeler are working on checking and updating network attributes. The MPO has verified a lot of the data and provided materials and input for employment, population, CO data, network, college data etc. The TAZs have been established.

Additional information: The Census is now available on the United States Census Bureau site. Refer to the [website](#) for census information.
